PROFESSIONAL SUMMARY

Delivery leader with 14+ years in consulting and software services across insurance, capital markets, and financial services. Has led custom software and platform programs from discovery through deployment, built and managed delivery teams, and carried budget and margin accountability on client engagements. Billable on client work for most of that time. Based in Victoria.

KEY ACHIEVEMENTS

- **Direct Management of Delivery Leads:** Hired and directly managed a 14-person team of Engagement Managers, Project Managers, Product Managers, and Technical Leads, with zero attrition.
- **Program Slippage Reduced From 22% to Under 8%:** Changed governance and risk reviews across a multi-client portfolio so that schedule drift was caught earlier.
- **20+ Software Projects Delivered:** Led medium-to-large custom builds from discovery and UX design through implementation and deployment.
- **Portfolio P&L and Forecast Ownership:** Held P&L and forecast across a \$65M+ portfolio of 12 enterprise accounts, and secured a \$9M managed-services extension on delivery performance.
- **Team Scaled From 23 to 75 in Fifteen Months:** Recruited and onboarded while putting succession planning in place.
- **\$2.5M Production Support Book:** Maintained full SLA compliance for enterprise clients in insurance and financial services.

CORE COMPETENCIES

- Program and Portfolio Governance
- Engagement Financials: Budgeting, Forecasting, Margin
- Team Building, Coaching, and Succession Planning
- Resource and Bench Planning
- SOW, RFP, and Change Control
- Steering Committee Reporting
- Agile and Hybrid Delivery
- Risk Detection and Program Recovery
- Onshore and Offshore Delivery: North America, India, Eastern Europe

PROFESSIONAL EXPERIENCE

Sapiens Insurance Solutions | Director of Client Engagement and Digital Delivery

Sep 2024 - Present

Victoria, BC (Remote)

- Hold full delivery accountability for enterprise SaaS implementations in Workers' Compensation and Reinsurance, owning governance, escalation resolution, and go-live decisions release by release.
- Lead the data warehousing and reporting workstream on a core system migration, with client reports sourced from the data warehouse and operational data store.
- Serve as senior escalation point across Sales, Engineering, and Product on pricing, packaging, and account strategy.
- Run an internal Claude Enterprise pilot that puts AI assistants to work on the delivery team's own analysis, testing, planning, and reporting.
- Work with product leadership on platform upgrades and a new agentic AI offering, translating the roadmap into delivery sequencing.
- Own AI agent integrations with Microsoft for document processing, underwriting analytics, and claim triage.
- Manage delivery teams across North America, India, and Eastern Europe to one standard of accountability.

S&P Global | Associate Director, Client Delivery

Nov 2022 - Sep 2024

Victoria, BC (Remote)

- Set up career paths and SLAs for the delivery team, and co-led the wider delivery organization through Agile guilds.
- Established governance for 8 Agile product teams building client-facing software, tying program milestones to client business outcomes.
- Grew the client book 28% year over year and lifted retention 15%.
- Brought two delivery cultures onto one set of tools and practices after the IHS Markit merger, including ownership of the Jira and Atlassian platform.
- Owned the executive-level relationship for a major capital markets platform client.

- Led technology roadmap work with engineering: .NET and Node.js upgrades, Windows Server 2022 uplifts, and CI/CD implementation.

CGI Group | Principal, Application Services

Dec 2019 - Nov 2022

Victoria, BC | US New England (Remote)

- Program Director on a multi-year platform replacement for a national insurance carrier, with delivery teams across the US, Canada, and India.
- Held billable ownership and direct client accountability for \$4M-\$10M cloud transformation engagements at two financial services clients.
- Led RFPs, proposals, and statements of work from \$500K upward, tracked through Salesforce and Dynamics 365.
- Directed a data and analytics transformation for a Fortune 500 insurer, accountable for its budget and margin.
- Introduced milestone reporting standards that were adopted across the account and cited by clients at renewal.
- Advised client organizations as an Agile Coach on setting up PMO structures and moving from traditional delivery to Lean Portfolio Management.

CGI Group | Lead Business Consultant

May 2015 - Dec 2019

Hyderabad | Victoria, BC

- Led software projects for insurance and financial services clients with geographically dispersed teams as large as 120+.
- Ran resource allocation and bench planning against regional project demand, and interviewed and onboarded delivery hires.
- Built a practice Center of Excellence, mentoring consultants through training, knowledge transfer, and innovation labs.
- Advised clients as an internal subject matter expert on multi-year product and platform roadmaps.
- Scoped an Oracle NetSuite pre-implementation for a banking client.
- Contributed to the firm's knowledge management and continuous improvement programs.
- Delivered payment gateway integration and PCI-DSS compliance for a financial services client.

CGI Group | Senior Business Consultant

Apr 2014 - Apr 2015

Columbus, OH | Hyderabad

Mapfre USA and Liberty Mutual | Various Roles

Apr 2011 - Mar 2014

Indianapolis, IN | Columbus, OH

- Owned production support for live core business applications, keeping systems stable and changes controlled for day-to-day operations.

EDUCATION

MBA, International Business and Entrepreneurship

University of Victoria, BC | 2017 - 2019

MS, Electrical Engineering

New York University, NY | 2009 - 2011

BE (Hons.), Electronics & Instrumentation

BITS Pilani, India | 2004 - 2008
