PROFESSIONAL SUMMARY

Senior Client Engagement and Delivery Leader with 14+ years partnering with C-suite stakeholders to lead enterprise digital transformation, account governance, and consulting delivery across insurance technology, fintech, and public sector. Trusted advisor to executive clients; connecting technology investment to business outcomes, owning pre-sales through go-live, and driving sustained account growth. Managed \$65M+ in client portfolios, won \$500K–\$25M RFPs, and built high-performing delivery organizations from the ground up.

KEY ACHIEVEMENTS

- **Scaled Revenue and Retention:** Managed \$65M+ portfolio across 12 enterprise clients; drove 28% YoY growth and secured up to \$9M in managed services extensions — retention up 15% through proactive account governance.
- **GTM and Pre-Sales Leadership:** Won \$500K–\$25M RFPs by building board-level business cases that translated technology capability into quantified business value — trusted to lead proposals from qualification through close.
- **Transformation Ownership:** Led Guidewire and Duck Creek cloud migrations contributing to 40% account growth for CGI's insurance vertical; directed \$15M+ public sector digital modernization programs end-to-end.
- **AI Innovation and Advisory:** Led development and GTM positioning of AI solutions for insurance policy automation and claims intelligence; built client-facing AI roadmaps anchored to ROI and responsible governance.
- **PMO Governance and CoE:** Established Agile Centers of Excellence, PI Planning, and ART governance; defined KPI-led reporting standards adopted across multi-domain portfolios.

CORE COMPETENCIES

- Client Engagement, Trusted Advisor Relationships, and Executive Stakeholder Management
- Account Governance, P&L Ownership, and Portfolio Growth
- Pre-Sales, RFP Strategy, and Go-to-Market Execution
- Digital Transformation and Enterprise Program Delivery (Agile, SAFe, SDLC)
- IT Strategy, PMO Design, and Operating Model Advisory
- AI Advisory: GenAI, Agentic AI, LLM Frameworks, Responsible AI Governance
- Software Product Lifecycle Management and SaaS Success Planning
- Cloud Migration and Infrastructure Modernization (AWS, Azure, GCP)

PROFESSIONAL EXPERIENCE

Sapiens Insurance Solutions | **Director, Client Engagement and Digital Delivery**

Sep 2024 – Present

Victoria, BC (Remote)

- Primary trusted advisor across Workers' Comp and Reinsurance enterprise accounts; owning the full client relationship from contract governance through SaaS go-live, including delivery health, escalation resolution, and milestone accountability.
- Partner with Sales and Marketing on pricing, packaging, and positioning; drive 7–10% revenue growth through structured account expansion planning and proactive renewal governance.
- Own AI implementations within Sapiens Digital Suite, partnering with Microsoft to integrate Azure AI agents for intelligent document processing, underwriting analytics, and autonomous claim triage.
- Built client-facing GenAI business cases including whitepapers, POCs, ROI calculators that moved AI conversations from concept to funded initiative.

S&P Global | Associate Director, Client Delivery

Nov 2022 – Sep 2024

Victoria, BC (Remote)

- Established executive governance frameworks across 8 Agile product teams, connecting delivery milestones directly to client business outcomes across managed services and product enhancement engagements.
- Zero attrition across a team of 14 (Tech Managers, Product Owners, Engagement Managers) built through clear accountability structures and consistent delivery culture.
- Launched AI-enabled low-code financial apps with Product and Marketing; strategic alliances formed during this period expanded the solution portfolio and contributed to a 20%+ improvement in client satisfaction scores.

CGI Group | Principal, Application Services

Dec 2019 – Nov 2022

Victoria, BC | US New England (Remote)

- Directed \$4M–\$10M cloud transformation engagements for two Fortune 500 insurance clients; owned executive relationships, delivery governance, and commercial outcomes end-to-end.
- Supported \$7M+ in RFP wins by building executive reporting frameworks and delivery track records that established credibility at the C-suite level.
- Standardized delivery governance across multi-client portfolios and reduced average program slippage from 22% to under 8%, giving clients consistent milestone visibility.

CGI Group | Lead Business Consultant

May 2015 – Dec 2019

Hyderabad | Victoria, BC

- Grew the insurance delivery team from 23 to 75 in 15 months — achieved by formalizing Agile practices, PI Planning, and release readiness from scratch, not by inheriting an existing structure.
- Built long-term advisory relationships across enterprise insurance and financial services clients, driving account solutioning and executive engagement that supported sustained portfolio growth.
